<p><i>Day 1 (M)</i></p> <p>Selecting Books and Enjoying Silent Reading</p>	<ul style="list-style-type: none"> We have specific ways to select and return books in our classroom so that we all can find and use them easily. We read silently and do not talk with others to do our best thinking while reading. 	<ul style="list-style-type: none"> Students learn how to maintain the organized classroom book collections. The routines of silent individual reading are established. 	<p>Management Lesson—</p> <p>Part 1— <i>This year you will get to read many wonderful books in our classroom and at home. I'd like to introduce you to our classroom collection of books. Let's talk about how we can choose, read, and return them in a way that let's us all find and use them easily.</i> Share the ways books are organized; point out books categorized by author, by genre, by topic, by series, by how easy or hard they are to read, by award winners, or by any other category you've established. Show students the place where each category of books is kept. Then show students how to take books out and return them to each basket.</p> <p><i>We will all get to share these wonderful books in our classroom this year. If we are responsible for selecting and returning them to the baskets, we will always be able to find the books we want to read.</i></p> <p>Part 2—Write "Reading is Thinking" on a chart. <i>Today you are going to have a good block of time to enjoy your reading. <p><i>Day 2 (M)</i></p> <p>How Readers Choose Books</p>	<ul style="list-style-type: none"> • Readers choose books in many different ways. 	<ul style="list-style-type: none"> • Students will use several different kinds of information to help them choose. • Students will think carefully about book choice. 	<p>Management Lesson—</p> <p><i>Each of you has chosen a book to read from our classroom collection (or from library). We choose books to read in many different ways and for many different purposes. For example, I love to read _____ so I often look for that type of book. When I need to cook a new recipe I look through and read parts of several different cookbooks. If I'm planning a trip I may choose a book or guide about the place that I am going so that I can better plan my trip. If I am teaching something new I choose a book to gain more knowledge about the topic. I read for many different purposes and those purposes determine the books that I choose and how I will read them. What do you think about when you choose a book to read?</i></p> <p>Write student responses on a chart - "Ways We Choose Books". (See example # 1)</p> <p><i>I'll leave this list of ways readers choose books on the wall because you may think of other ways you choose books to read and we can add them. <p><i>Day 3 (S)</i></p> <p>Making Good Book Choices</p>	<ul style="list-style-type: none"> Books can be easy, just-right, or challenging for a reader. Readers should choose just-right books most of the time. 	<ul style="list-style-type: none"> Readers will have criteria to judge whether a book is just right for independent reading 	<p>Strategies and Skills lesson—</p> <p>One of the most important goals of early minilessons is getting your students reading “just right” books that they enjoy. As you teach the minilesson, create a chart with three categories, indicating the characteristics of <i>easy</i>, <i>just-right</i>, or <i>challenging</i> under each.</p> <p><i>Today we are going to talk about how readers choose “easy,” “just right,” or “challenging” books to read. I’ll make some notes on this chart to help you. Remember each kind of book we talk about.</i></p> <p><i>Sometimes, easy books are fun to read. They’re the kinds of books you read when you want to relax. You might pick a favorite picture book you’ve heard read aloud or a book that you have read before and enjoyed or a new book that won’t take a lot of effort for you to read and understand. You can read the book easily and understand it very well. I’ll write E on the chart to indicate “easy.”</i></p> <p><i>Just-right books are those that you understand well and can enjoy. You read the book smoothly and have only a few places where you need to slow down</i></p>	<ul style="list-style-type: none"> Chart-(to be completed during lesson) Characteristics of <i>easy</i>, <i>just-right</i>, or <i>challenging</i> books

I'll write JR, for "just right," on the chart.</i></p> <p><i>Challenging books are very difficult for you to read. You have trouble reading many of the words and don't understand most of what you are reading. These are books that are too difficult for you to enjoy right now, but you may find you will enjoy them later. Challenging books are not usually good choices for right now. I'll write C on the chart to stand for "challenging." There may be some times when you would choose a challenging book, such as when you needed to find some facts on a particular topic, but most of the time, you would save challenging books until they are "just right" for you.</i></p> <p><i>When you are reading today, think about whether the book you are reading is easy, just right, or challenging for you. When you return to the group, be prepared to share the category that best describes your choice. Yesterday you did a wonderful job reading silently so everyone could do his best thinking. Let's do the same today.</i></p>

My aunt baked bread just like Eldon's mother did, and I could almost smell it. I felt that everything on the farm was old and well used. I liked the description of the names carved on the beds—names they didn't even know because the beds were so old. (You may want to use your own example from a book you've read)</i></p> <p><i>You will be thinking as you read your book today. You may be thinking about what you like or don't like, things the book reminds you of in your life or in other books, or questions you have. I'll write some of the thinking we talked about on this chart to remind you. We can add more later.</i></p> <p>Take a moment to list the kinds of thinking on the "Reading Is Thinking" chart that you started on the first day. This is the conventional form of a personal letter. That means it's how readers will understand it is a friendly letter.</p> <p>This is how you will write your letter each week—you will write your best thinking in the form of a personal letter. Our letter will be like a conversation between two readers. Any questions about the form? (<i>Writes point 1 on the chart</i>).</p> <p>Sometimes you take a word apart, noticing the parts. <p>Day 20 (S)</p> <p>Using Punctuation to Help You Understand</p>	<ul style="list-style-type: none"> Readers use punctuation to understand the author's message. 	<ul style="list-style-type: none"> Students learn how the punctuation helps them understand the author's message. 	<p>Strategies and Skills lesson—</p> <p><i>Readers use the punctuation to understand the author's message. When you read, the punctuation marks help you in lots of ways.</i></p> <p>The following dialogue is one class's conversation about punctuation:</p> <p>T—For example, the period lets you know when one thought ends. What does your voice do when you reach a period?</p> <p>S—It goes down.</p> <p>T—Yes, your voice drops. What do you do when you see a comma?</p> <p>S—You pause a little.</p>	<p>Chart—paragraph from a book (<i>Russell Sprouts</i> used as an example in text)</p>

			<p>T—So marks like that help us sound good when we read aloud, and we are thinking about them when we read silently. They remind us to pause a little. Look at this paragraph (Refer to the paragraph from <i>Russell Sprouts</i>, which has been written on a chart.) Mary read the second sentence that begins with <i>But</i>.</p> <p>S- Reads the sentence.</p> <p>T- Listen to the way Mary took a short breath after the word <i>instead</i>. That helped us understand the sentence. We've talked about quotation marks, or talking marks. They help us to know when the characters are talking. Can you find a place in this paragraph where someone is talking?</p> <p>S—Yes, Mr. Michaels is talking. He says, "Schmatz!"</p> <p>T—You notice that in this sentence there are quotation marks before and after the word <i>Schmatz</i>,, showing us that this is what the character says. Did you notice how Ken read <i>Schmatz</i> ?</p> <p>S—He was excited.</p> <p>T—Ken, how did you know to read it that way?</p> <p>S—Because there's an exclamation point.</p> <p>T—You're right. Exclamation points also help us understand the author's meaning. He wanted Mr. Michaels to sound irritated because Russell had soaked his pants leg. What Mr. Michaels said is inside the quotation marks. It has its own ending punctuation, the exclamation point.</p>	
--	--	--	--	--

			<p>What characters say is usually set off by quotation marks and has its own ending punctuation. Let's read this paragraph out loud together and observe all the punctuation. (<i>The students do so.</i>) Remember to notice and think about the punctuation while you read because it will help you understand what the author is trying to say. Have a paragraph from the book you are reading ready to share with a partner during group share later. You will read your paragraph to each other, observing the punctuation marks.</p>
